

RITHIK KUMAR M B

Backend Developer | Java & Spring Boot

+91-9353543027 | ffrithik@gmail.com | github.com/Rithik333R | linkedin.com/in/rithik-kumar-117a571ba

SUMMARY

Backend-focused Software Engineer specializing in Java and Spring Boot, with hands-on experience building secure REST APIs and integrating AI capabilities (Gemini, RAG, Spring AI) into production systems. Comfortable extending into React.js for full-stack delivery when a project calls for it, with experience deploying to Vercel, Render, and Aiven MySQL. Works efficiently with modern AI-assisted development tools to speed up debugging and code review, while owning architecture, design, and code quality end to end.

SKILLS

Languages: Java, Python, JavaScript, SQL

Backend: Spring Boot, Spring Security, Spring AI, REST APIs, JPA, Hibernate, JWT, Maven

Frontend: React.js, Vite, Tailwind CSS, Axios

Databases: MySQL, MongoDB, TiDB

AI & Integration: Gemini AI, RAG, Vector Embeddings, Cloudinary, Docker, Git, Postman, Swagger

Other: Node.js, Express.js

EXPERIENCE

Software Developer Intern (IoT) — STPI IoT Open Lab

Sept 2024 – Dec 2024 | ESP32, Arduino IDE, Java

- Developed real-time device-to-backend communication workflows between ESP32 hardware and server systems, enabling continuous monitoring and live data exchange.
- Optimized backend communication logic in Java, improving responsiveness and reliability of the device-to-server data pipeline.

Data Analyst Intern — Ants Skill Varsity

Feb 2025 – May 2025 | SQL, Tableau, Power BI

- Analyzed datasets of 10,000+ records using SQL to support data-driven decision-making.
- Built interactive dashboards in Tableau and Power BI, reducing manual reporting effort by 30%.

PROJECTS

MockIQ – AI Career Platform

Apr 2026 – Present | Spring Boot, React.js, MySQL, Gemini AI

- Architected and built a full-stack AI SaaS platform for ATS resume analysis, AI-generated mock interviews, skill-gap detection, and personalized learning roadmap generation.
- Developed secure Spring Boot REST APIs using JWT authentication, Spring Security, and JPA/Hibernate with MySQL.
- Integrated Gemini AI for ATS scoring, interview evaluation, skill-gap analysis, and roadmap generation workflows.
- Deployed production infrastructure using Vercel, Render, Aiven MySQL, and Cloudinary.

Free Fire Arena – Esports Platform

Dec 2025 – Present | React.js, Node.js, Express.js, MongoDB, JWT

- Designed and built a full-stack tournament management platform supporting three formats — Battle Royale, Clash Squad, and Lone Wolf — from registration through result processing.
- Implemented JWT-based authentication with role-based access control separating player and admin permissions.
- Built automated tournament lifecycle management, including registration workflows, result processing, and dynamic leaderboard generation.
- Designed MongoDB schemas and REST APIs for tournaments, participants, and player rankings.

EDUCATION

B.E. Computer Science and Engineering — T John Institute of Technology, Bengaluru

2021 – 2025 | CGPA: 8.36 / 10

CERTIFICATIONS

- IBM: Cloud Application Developer, Predictive Analytics Modeler, RDBMS & Python
- NASSCOM Foundation: Data Analytics Internship Certification
